## Our Students' Future

We have been working with Hoffman Architectural to understand the opportunities and challenges provided by our current facilities as it relates to programming and building quality.

Currently, a Community Committee, consisting of 25 individuals has met with Hoffman 4 times to gather information and have discussions about our facilities. These meetings have included: tours of all of our facilities, identifying parts of the facilities that need updating and prioritizing the needs of the facilities and district. The Committee will continue to work during the month of December. Their final responsibility will be to present their findings to the Board of Education in January. At the time of the presentation, a recommendation will be made to address the identified needs of the district, this recommendation may include going to the voters of the Chilton School District for support in the form of a referendum.
